Real Time Reporting

The system, deployed in 2013, allows our ground ops team to use pre-programmable mobile devices to report each steps of a ship call in real time. Where required, instantaneous pictures of the events are attached to the email. All ship calls serviced are currently supported with this system.

Mar 18th, 2020

Port Louis

Task	Time	Task detail
Real Time Reporting	08:29:59	Dear all, Please note that we will be using a system of Real Time Reporting for this call. Hence, you will be getting updates on the various steps of the operations as and when they are happening on the ground. So as not to clog your inbox, we will be sending 4 to 5 emails for the updates. This is done via a mobile system by our ground operatives. As you will notice, this is a pioneering technology in the field of shipping and we hope that you will find it of good value.
